*David Serlin*

David J Serlin has always been intrigued by the mysteries of spirituality. Following a successful career in marketing and property management, he followed his dream to train as a spiritual healer and, later, as a practitioner of Positive Thinking and of New Thought, founding a Spiritual Living group with his wife Linda. Here, they work as a team, offering workshops and personal training in spiritual development. "Spirituality," David says, "must be relevant, accessible to all – and fun!" The family lives in Hertfordshire, UK.

*New Thought New You*

David and his wife Linda run **New Thought New You**, their very own spiritual study group, and through their workshops, one 2 ones and special events they teach and share 'Practical Spirituality', utilising the principles of New Thought (and Science of Mind) to deal more effectively with life's issues, challenges and opportunities.
